MARCH 2003

32cc, 35cc and 38cc GASOLINE POWERED ANTI-VIBRATION (AV) CHAIN SAWS

McCulloch products are identified by a model number (in this instance 600035) followed by a suffix number (08). Suffix numbers denote variations in parts or assemblies used in the manufacture of this product.

Illustrated Parts Lists (IPLs) contain a PART NUMBER, DESCRIPTION, UNITS per assembly and STOCKING CODE for each part.

Stocking Codes are:

- A - Dealer stocked. Fast to medium moving part.
- B - Distributor stocked. Medium to slow moving part.
- C - Factory stocked. Slow moving part.

NOTE: The following explains symbols and footnotes in this IPL:

- (-) A dash preceding a PART NUMBER indicates that it is a new part number, different from the one listed in the previous IPL for this unit.
- (.) One or more dots (. Spring, Starter) preceding a part DESCRIPTION indicates the part is included in the kit or assembly described directly above the dot(s).
- (-- --) If four dashes appear in place of a PART NUMBER, the part is not available individually but is included in the next higher assembly or subassembly.
- ①② Circled numbers preceding a DESCRIPTION footnote the part or assembly to additional information on the page.
- (*) An asterisk denotes that choices follow or precede.
- (+) Serial Number Prefix 21- denotes CARB approved unit -- all parts are interchangeable with Serial Number Prefix 11-.

The policy of McCulloch is one of continual improvement in design, manufacturing and engineering advancement wherever possible to assure still finer power tools. Hence, specifications, equipment colors, design and manufacturer's suggested list prices are subject to change without notice. McCulloch reserves the right to make such changes without prior notification or obligation to backfit or supply backfit components for units previously shipped from the factory.

Gas Chain Saw

MS1636NAVCC

ENGINE

36cc, 2-Cycle Engine

Electronic Ignition

For reliable starts in all conditions

Chrome-Plated Cylinder

For longer engine life

SAW CAPABILITIES

16" Bar Length

Cuts logs up to 32" in diameter

Automatic Oiler

Provides consistent lubrication to bar and chain while the saw is running

Sprocket Tip Bar

Increases the RPM of the chain and decreases bar wear

Standard Chain Brake/Hand Guard

Immediately stops the chain when the user's hand contacts the chain brake lever in the event of kickback; for added safety and protection.

Inertia Chain Brake

Immediately stops the chain when the saw encounters inertia produced by kickback

OTHER FEATURES

Carry Case Included

Protects saw in transit, as well as eliminates oil drip while in storage

1-Year Limited Warranty

Carry Case Included

16" Gas Chain Saw
Model: TBD
UPC: TBD
